## Bulk Asbestos Analysis

**By Polarized Light Microscopy**

**EPA Method:** 600/R-93/116 and 40 CFR, Part 763, Subpart E, App.E

### Project: Former West Side Plaza

**Customer:** NEO Corporation  
500 A Ambrose Ave  
Knoxville, TN 37921

**Disclaimer:** Due to the nature of the EPA 600 method, asbestos may not be detected in samples containing low levels of asbestos. We strongly recommend that analysis of floor tiles, vermiculite, and/or heterogeneous soil samples be conducted by TEM for confirmation of “None Detected” by PLM. This report relates only to the samples tested and may not be reproduced, except in full, without the written approval of SAI. This report may not be used by the client to claim product endorsement by NVLAP or any other agency of the U.S. government. Analytical uncertainty available upon request. Scientific Analytical Institute participates in the NVLAP Proficiency Testing program. Unless otherwise noted blank sample correction was not performed. Estimated MDL is 0.1%.
